Mainsail: 12.00 m² - 129 sq/ft

Materials: Polyester / Wood

Number of people aboard : 3

Category : C

The Nantucket Cat-boat derives from a sailing concept very popular in the United States at the end of the last century. Designed to navigate in the rough waters of the American East Coast estuaries, it has an exceptionally stable shape. Characterised by its simplicity, comfort and safety in use, this cat-boat is as suitable for adults as it is for children, and will give pleasure to all families of enthusiasts. Nimble and taut under sail, this real toy rigged with a sliding-gunter sail cleverly blends the traditional and the modern to bring us back to the simple pleasures of sailing.

Due to its light weight, the Nantucket Cat-boat is easy to transport and can follow you to your different sailing venues. One person can launch it and fit the masts easily on their own. Anything is possible to customise your boat – our team is ready to meet all your requests.

STANDARD

- Polyester hull
- Anti-slip deck
- Wood keel with retractable centreboard
- Varnished mahogany finishes
- Oregon pine spars
- Half width white sail
- Harken fittings
- Plug hole
